Chapters

- 1 General information
- 2 Specifications
- 3 Cylinder head assembly
- 4 Piston and connecting rod assemblies
- 5 Crankshaft assembly
- 6 Timing case and drive assembly
- 7 Cylinder block assembly
- 8 Engine timing
- 9 Aspiration system
- 10 Lubrication system
- 11 Fuel system
- 12 Cooling system
- 13 Flywheel and housing
- 14 Electrical equipment
- 15 Auxiliary equipment
- 16 Special tools

The following pages contain a detailed table of contents

Contents

1 General information

Introduction	1
Engine views	2
Engine identification	3
Safety precautions	5
Viton seals	6
Engine lift equipment	7
POWERPART recommended consumable products	8

2 Specifications

Basic engine data	11
Data and dimensions	12
Thread sealant	35
Standard torque tensions	36
Specific torque tensions	37
Compression test data	40

3 Cylinder head assembly

General description	41
Rocker cover	
Operation 3-1 To remove	42
Operation 3-2 To fit	43
Rocker assembly	
Operation 3-3 To remove and to fit	44
Operation 3-4 To dismantle and to assemble	45
Operation 3-5 To inspect and to correct	45
Valve tip clearances	
Operation 3-6 To check and to adjust (four cylinder engines)	46
Operation 3-7 To check and to adjust (six cylinder engines)	47
Valve springs	
Operation 3-8 To change the valve springs (with cylinder head fitted)	48
Manifolds	
Operation 3-9 To remove and to fit an intake manifold	50
Operation 3-10 To remove and to fit an exhaust manifold (one-piece)	52
Operation 3-11 To remove and to fit an exhaust manifold (three-piece)	54
Cylinder head assembly	
Operation 3-12 To remove	56
Operation 3-13 To fit (engine types AJ to AQ and YG to YK)	58
Operation 3-14 To fit (engine types AR and AS)	61
Valves and valve springs	
Operation 3-15 To remove	64
Operation 3-16 To fit	65
Operation 3-17 To inspect and to correct	66
Valve guides	
Operation 3-18 To inspect	67
Operation 3-19 To remove	68
Operation 3-20 To fit	69
Cylinder head	
Operation 3-21 To inspect and to correct	70
Operation 3-22 To correct a valve seat with a valve seat cutter	71
Operation 3-23 To fit valve seat inserts	73

Crankshaft pulley and damper

Operation 5-2 To remove (six cylinder engines)	96
Operation 5-3 To fit (six cylinder engines)	97
Operation 5-4 To inspect	98

Rear oil seal assembly

Operation 5-5 To remove and to fit (one-piece assembly)	99
Operation 5-6 To remove and to fit (two-piece assembly)	102
Operation 5-7 To renew the rear end oil seal (two-piece assembly)	103
Operation 5-8 To remove and to fit a wear sleeve	104

Thrust washers

Operation 5-9 To check crankshaft end-float	105
Operation 5-10 To remove	106
Operation 5-11 To fit	107

Main bearings

Operation 5-12 To remove (with the crankshaft in position)	108
Operation 5-13 To fit	109
Operation 5-14 To inspect	109

Crankshaft

Operation 5-15 To remove	110
Operation 5-16 To fit	111
Operation 5-17 To inspect	113

Balancer unit

Operation 5-18 To remove and to fit	114
Operation 5-19 To dismantle	115
Operation 5-20 To assemble	117
Operation 5-21 To inspect	120
Operation 5-22 To remove and to fit the needle roller bearings for the drive shaft	121
Operation 5-23 To remove and to fit the bushes for the balance weights	122

6 Timing case and drive assembly

General description

Timing case cover

Operation 6-1 To remove	124
Operation 6-2 To fit	125

Front oil seal

Operation 6-3 To remove	127
Operation 6-4 To fit	128
Operation 6-5 To remove and to fit a wear sleeve	130

vi

Workshop Manual, TPD 1350E, Issue 4

Idler gear and hub

Operation 6-6 To remove	131
Operation 6-7 To fit	133

Idler gear and hub for the compressor

Operation 6-8 To remove	135
Operation 6-9 To fit	136

Fuel pump gear

Operation 6-10 To remove	137
Operation 6-11 To fit	139

Camshaft gear

Operation 6-12 To remove and to fit	141
---	-----

Crankshaft gear

Operation 6-13 To remove and to fit	142
---	-----

Timing case

Operation 6-14 To remove	143
Operation 6-15 To fit	144

Camshaft and tappets

Operation 6-16 To remove	146
Operation 6-17 To fit	147

7 Cylinder block assembly

General description

Cylinder block

Operation 7-1 To dismantle	150
Operation 7-2 To assemble	151
Operation 7-3 To inspect	152
Operation 7-4 To remove and to fit a new type 'D' plug to the tappet chamber	153

Cylinder liner

Operation 7-5 To inspect	155
Operation 7-6 To remove	156
Operation 7-7 To fit a service liner	158
Operation 7-8 To fit a partially finished liner	161

Cylinder bore, engine types AR and AS

Operation 7-9 To inspect	164
--------------------------------	-----

8 Engine timing

General description 165

Engine timing

Operation 8-1 To set number 1 piston to TDC on the compression stroke 167

Operation 8-2 Another method to set number 1 piston to TDC 168

Operation 8-3 To check the valve timing 169

Operation 8-4 To check the timing of the fuel injection pump 170

9 Aspiration system

General description 171

Turbocharger

Operation 9-1 To remove 173

Operation 9-2 To fit 174

Operation 9-3 To clean the impeller and the compressor casing 176

Operation 9-4 To remove and to fit the actuator assembly of the waste-gate unit 177

Operation 9-5 To check and adjust the operation of the waste-gate 178

Turbocharger faults 179

List of possible causes 180

Open engine breather 181

Operation 9-6 To clean and to renew 181

Operation 9-7 To Inspect 183

Closed engine breather 184

Operation 9-8 To renew the breather valve assembly 185

10 Lubrication system

General description - four cylinder engine lubrication system 187

General description - Six cylinder engine lubrication system 188

Filter canister

Operation 10-1 To renew 191

Filter head

Operation 10-2 To remove and to fit 192

Sump

Operation 10-3 To remove and to fit 193

Oil strainer and suction pipe

Operation 10-4 To remove and to fit 194
 Operation 10-5 To inspect and to correct 195

Lubricating oil pump 196

Operation 10-6 To remove 196
 Operation 10-7 To fit 197
 Operation 10-8 To inspect 198

Lubricating oil pump idler gear shaft 199

Operation 10-9 To remove (six cylinder engines) 199
 Operation 10-10 To fit (six cylinder engines) 201
 Operation 10-11 To remove and to fit (four cylinder engines) 202

Relief valve

Operation 10-12 To remove and to fit 203
 Operation 10-13 To dismantle and to assemble 204
 Operation 10-14 To inspect 204

Flexible oil pipes 205

Operation 10-15 To remove 205
 Operation 10-16 To fit 206
 Operation 10-17 To Inspect 207

11 Fuel system

General description 209

Cold start advance unit 212

Typical fuel system 215

Fuel filters 216

Fuel filter element

Operation 11-1 To renew - separate element type 217
 Operation 11-2 To renew - canister type 218
 Operation 11-3 To renew - quick release canister type 219

Atomisers 220

Operation 11-4 To remove 221
 Operation 11-5 To fit 222

Fuel lift pump

Operation 11-6 To remove and to fit	224
Operation 11-7 To dismantle	225
Operation 11-8 To assemble	226
Operation 11-9 To test	227

Bosch fuel injection pump 228

Operation 11-10 To remove	230
Operation 11-11 To fit	232
Operation 11-12 To adjust	234

Lucas/Delphi DP 200 Series fuel injection pump 235

Operation 11-13 To remove	237
Operation 11-14 To fit	239
Operation 11-15 To adjust	242
Operation 11-16 Electrical shut off solenoid (ESOS)	243

Stanadyne fuel injection pump 245

Operation 11-17 To remove	248
Operation 11-18 To fit	249
Operation 11-19 To adjust	251

Air in the fuel system 254

Operation 11-20 To eliminate air from the fuel system	254
---	-----

12 Cooling system

General description 257**Thermostats**

Operation 12-1 To remove	258
Operation 12-2 To fit	259
Operation 12-3 To test	260

Coolant pump - early gear driven pumps 261

Operation 12-4 To remove	261
Operation 12-5 To fit	262
Operation 12-6 To dismantle	263
Operation 12-7 To assemble	264
Operation 12-8 To remove and to fit a pressed steel cover (early coolant pumps)	267

Coolant pump - latest gear driven pumps 268

Operation 12-9 To remove	268
Operation 12-10 To fit	269
Operation 12-11 To dismantle	270
Operation 12-12 To assemble	273

Coolant pump - belt driven	277
Operation 12-13 To remove	277
Operation 12-14 To fit	279
Operation 12-15 To remove high position pump	281
Operation 12-16 To fit high position pump	283
Operation 12-17 To dismantle	285
Operation 12-18 To assemble	286

Fan

Operation 12-19 To remove and to fit	289
--	-----

Fan drive (engines with gear driven coolant pumps)

Operation 12-20 To remove and to fit	290
--	-----

Lubricating oil cooler

Operation 12-21 To remove (four cylinder turbocharged engines)	291
Operation 12-22 To fit (four cylinder turbocharged engines)	292
Operation 12-23 To dismantle and to assemble (four cylinder engines)	293
Operation 12-24 To remove (six cylinder turbocharged engines)	294
Operation 12-25 To fit (six cylinder turbocharged engines)	296
Operation 12-26 To dismantle and to assemble (six cylinder engines)	298
Operation 12-27 To remove and to fit (canister type)	300
Operation 12-28 To remove and to fit cooler bypass valve	300

Intercoolers

Horizontally mounted intercooler

Operation 12-29 To remove	302
Operation 12-30 To fit	304

Vertically mounted intercooler

Operation 12-31 To remove	306
Operation 12-32 To fit	307
Operation 12-33 To clean and to inspect	309

13 Flywheel and housing

General description

Flywheel

Operation 13-1 To remove and to fit	311
---	-----

Ring gear

Operation 13-2 To remove and to fit	312
---	-----

Flywheel housing

Operation 13-3 To remove and to fit	313
---	-----

14 Electrical equipment

Alternators	315
Operation 14-1 To check the drive belts	316
Operation 14-2 To adjust drive belt tension	317
Operation 14-3 To remove and to fit the drive belts	318
Operation 14-4 To remove and to fit the alternator	319
Operation 14-5 To maintain	319
Operation 14-6 Fault diagnosis	320
Starter motors	322
Operation 14-7 To remove and to fit	323
Operation 14-8 To maintain the brush gear and the commutator	324
Operation 14-9 To test on the engine	324
Operation 14-10 Fault diagnosis	325
Starting aids	326
Operation 14-11 To remove and to fit a fuelled starting aid	326
Operation 14-12 To remove and to fit a twin-fuelled starting aid	327
Operation 14-13 To check the fuelled starting aid	328
Operation 14-14 To remove and to fit a port heater	328

15 Auxiliary equipment

Bendix Compressor	
Operation 15-1 To remove	330
Operation 15-2 To fit	331
Knorr-Bremse compressor	
Operation 15-3 To remove	333
Operation 15-4 To fit	334
Operation 15-5 To remove the reed valves	336
Operation 15-6 To fit the reed valves	337
Operation 15-7 To remove the top unloader valve	338
Operation 15-8 To fit the top unloader valve	339
Operation 15-9 To remove the crankshaft / connecting rod / piston / piston rings	340
Operation 15-10 To fit the crankshaft / connecting rod / piston / piston rings	341
Power steering pump	
Operation 15-11 To remove and to fit	343
Adaptor for a hydraulic pump or a steering pump with a splined drive	
Operation 15-12 To remove and to fit	344
Operation 15-13 To dismantle	345
Operation 15-14 To assemble	346

Exhauster

Operation 15-15 To remove and to fit 347

16 Special tools
