## Chapters

- 1 General information**
- 2 Specifications**
- 3 Cylinder head assembly**
- 4 Piston and connecting rod assemblies**
- 5 Crankshaft assembly**
- 6 Timing case and drive assembly**
- 7 Cylinder block assembly**
- 8 Engine timing**
- 9 Aspiration system**
- 10 Lubrication system**
- 11 Fuel system**
- 12 Cooling system**
- 13 Flywheel and housing**
- 14 Electrical equipment**
- 15 Auxiliary equipment**
- 16 Special tools**

The following pages contain a detailed table of contents

# Contents

## 1 General information

Introduction .....	1
Engine identification .....	3
Safety precautions .....	4
Engine lift equipment .....	6
Viton seals .....	7
POWERPART recommended consumable products .....	8

## 2 Specifications

Basic engine data .....	11
Data and dimensions .....	12
Thread sealant .....	28
Standard torque tensions .....	29
Special torque tensions .....	30
Compression test data .....	32

## 3 Cylinder head assembly

<b>General description</b> .....	33
<b>Rocker cover</b>	
Operation 3-1 To remove .....	34
Operation 3-2 To fit .....	35
<b>Rocker assembly</b>	
Operation 3-3 To remove and to fit .....	36
Operation 3-4 To dismantle and to assemble .....	37
Operation 3-5 To inspect and to correct .....	38
<b>Valve tip clearances</b>	
Operation 3-6 To check and to adjust .....	39
<b>Valve springs</b>	
Operation 3-7 To change the valve springs (with cylinder head fitted) .....	40
<b>Cylinder head assembly</b>	
Operation 3-8 To remove .....	42
Operation 3-9 To fit .....	44
<b>Valves and valve springs</b>	
Operation 3-10 To remove .....	48
Operation 3-11 To fit .....	49
Operation 3-12 To inspect and to correct .....	50
<b>Valve guides</b>	
Operation 3-13 To inspect .....	51
Operation 3-14 To remove .....	52
Operation 3-15 To fit .....	53
<b>Cylinder head</b>	
Operation 3-16 To inspect and to correct .....	54
Operation 3-17 To correct a valve seat with a valve seat cutter .....	55
Operation 3-18 To fit valve seat inserts .....	56

---

## 4 Piston and connecting rod assemblies

<b>General description</b> .....	57
<b>Big end bearing</b>	
Operation 4-1 To remove .....	58
Operation 4-2 To fit .....	59
Operation 4-3 To inspect .....	59
<b>Piston and connecting rod</b>	
Operation 4-4 To remove .....	60
Operation 4-5 To fit .....	61
Operation 4-6 To check the piston height above the cylinder block .....	63
<b>Piston rings</b>	
Operation 4-7 To remove and to fit .....	64
<b>Piston and connecting rod assembly</b>	
Operation 4-8 To dismantle and to assemble .....	65
Operation 4-9 To renew .....	66
Operation 4-10 To check the length of a connecting rod .....	67
<b>Piston and piston rings</b>	
Operation 4-11 To inspect .....	69
<b>Connecting rod</b>	
Operation 4-12 To inspect .....	70
<b>Small end bush</b>	
Operation 4-13 To remove and to fit .....	71
<b>Piston cooling jets</b>	
Operation 4-14 To remove and to fit .....	72
Operation 4-15 To check the jet alignment .....	73

## 5 Crankshaft assembly

<b>General description</b> .....	75
<b>Crankshaft pulley and damper</b>	
Operation 5-1 To remove and to fit .....	76
Operation 5-2 To Inspect .....	77
<b>Rear oil seal assembly</b>	
Operation 5-3 To remove and to fit .....	78
Operation 5-4 To renew the rear oil seal .....	79
<b>Thrust washers</b>	
Operation 5-5 To check crankshaft end-float .....	80
Operation 5-6 To remove and to fit .....	81
<b>Main bearings</b>	
Operation 5-7 To remove (with the crankshaft in position) .....	82
Operation 5-8 To fit (with the crankshaft in position) .....	83
Operation 5-9 To inspect .....	83
<b>Crankshaft</b>	
Operation 5-10 To remove .....	84
Operation 5-11 To fit .....	85
Operation 5-12 To inspect .....	87

## 6 Timing case and drive assembly

<b>General description</b> .....	89
<b>Timing case cover</b>	
Operation 6-1 To remove .....	90
Operation 6-2 To fit .....	91
<b>Front oil seal</b>	
Operation 6-3 To remove .....	92
Operation 6-4 To fit .....	93
<b>Idler gear and hub</b>	
Operation 6-5 To remove .....	94
Operation 6-6 To fit .....	95
<b>Idler gear and hub for the Bendix compressor</b>	
Operation 6-7 To remove .....	96
Operation 6-8 To fit .....	97

**Fuel pump gear**

Operation 6-9 To remove .....	98
Operation 6-10 To fit .....	99

**Camshaft gear**

Operation 6-11 To remove and to fit .....	100
---	-----

**Crankshaft gear**

Operation 6-12 To remove and to fit .....	101
---	-----

**Timing case**

Operation 6-13 To remove .....	102
Operation 6-14 To fit .....	103

**Camshaft and tappets**

Operation 6-15 To remove .....	105
Operation 6-16 To fit .....	106

## 7 Cylinder block assembly

<b>General description</b> .....	107
----------------------------------	-----

**Cylinder block**

Operation 7-1 To dismantle .....	108
Operation 7-2 To assemble .....	109
Operation 7-3 To inspect .....	110

**Cylinder liner**

Operation 7-4 To inspect .....	111
Operation 7-5 To remove .....	112
Operation 7-6 To fit a partially finished liner .....	114

## 8 Engine timing

<b>General description</b> .....	117
----------------------------------	-----

**Engine timing**

Operation 8-1 Flywheel and pin method to set the engine to top dead centre (TDC) on the compression stroke .....	119
Operation 8-2 Reverse pin timing to set the engine to top dead centre (TDC) on the compression stroke .....	120
Operation 8-3 Alternative method to set number 1 piston to TDC on the compression stroke .....	121
Operation 8-4 To check the valve timing .....	122
Operation 8-5 To check the timing of the fuel injection pump .....	123

## 9 Aspiration system

<b>General description</b> .....	125
<b>Turbocharger</b>	
Operation 9-1 To remove .....	127
Operation 9-2 To fit .....	128
Operation 9-3 To clean the impeller and the compressor casing .....	130
Operation 9-4 To remove and to fit the actuator assembly of the waste-gate unit .....	131
Operation 9-5 To check and adjust the operation of the waste-gate .....	132
<b>Turbocharger faults</b> .....	133
<b>Open engine breather</b>	
Operation 9-6 To clean and to renew .....	135

## 10 Lubrication system

<b>General description</b> .....	137
<b>Engine lubrication system flow diagram</b> .....	138
<b>Filter canister</b>	
Operation 10-1 To renew .....	139
<b>Filter head</b>	
Operation 10-2 To remove and to fit .....	140
<b>Sump</b>	
Operation 10-3 To remove and to fit .....	141
<b>Oil strainer and suction pipe</b>	
Operation 10-4 To remove and to fit .....	142
Operation 10-5 To inspect and to correct .....	142
<b>Lubricating oil pump</b>	
Operation 10-6 To remove .....	143
Operation 10-7 To fit .....	144
Operation 10-8 To renew the shaft for the idler gear .....	145
Operation 10-9 To inspect .....	146
<b>Relief valve</b>	
Operation 10-10 To remove and to fit .....	147
Operation 10-11 To dismantle and to assemble .....	148
Operation 10-12 To inspect .....	148

## 11 Fuel system

<b>General description</b> .....	149
<b>Fuel filter element</b>	
Operation 11-1 To renew .....	151
<b>Atomisers</b>	
Operation 11-2 Atomiser fault .....	152
Operation 11-3 To remove .....	153
Operation 11-4 To fit .....	154
<b>Fuel lift pump</b>	
Operation 11-5 To remove and to fit .....	156
Operation 11-6 To dismantle .....	157
Operation 11-7 To assemble .....	158
Operation 11-8 To test .....	159
<b>Bosch EPVE fuel injection pump</b> .....	160
Operation 11-9 To remove .....	161
Operation 11-10 To fit .....	162
Operation 11-11 To adjust - Bosch pump .....	165
Operation 11-12 To eliminate air from the fuel system .....	166

## 12 Cooling system

<b>General description</b> .....	169
<b>Thermostats</b> .....	170
Operation 12-1 To remove and to fit .....	170
Operation 12-2 To test .....	170
<b>Coolant pump</b> .....	171
Operation 12-3 To remove and to fit .....	171
Operation 12-4 To dismantle .....	172
Operation 12-5 To assemble .....	173
<b>Lubricating oil cooler</b>	
Operation 12-6 To remove and to fit .....	175
Operation 12-7 To dismantle and to assemble .....	176

## 13 Flywheel and housing

**General description** ..... 177

### Flywheel

Operation 13-1 To remove and to fit ..... 178

### Ring gear

Operation 13-2 To remove and to fit ..... 179

### Flywheel housing

Operation 13-3 To remove and to fit ..... 180

## 14 Electrical equipment

Operation 14-1 To check the drive belts ..... 182

Operation 14-2 To adjust drive belt tension ..... 183

Operation 14-3 To remove and to fit the drive belts ..... 184

Operation 14-4 To remove, to fit and to maintain the alternator ..... 185

**Alternator fault diagnosis** ..... 186

Operation 14-5 To remove and to fit ..... 188

Operation 14-6 To maintain the brush gear and the commutator ..... 189

Operation 14-7 To test on the engine ..... 189

Operation 14-8 To remove and to fit a port heater ..... 190

## 15 Auxiliary equipment

Operation 15-1 To remove ..... 192

Operation 15-2 To fit ..... 193

### Power steering pump

Operation 15-3 To remove and to fit ..... 195

### Exhauster

Operation 15-4 To remove and to fit ..... 196

## 16 Special tools

**List of special tools** ..... 197
