## HydraCat<sup>®</sup> Loader

### Service Parts Manual

GEHL COMPANY

# HL3030 - INTRODUCTION

---

## Mr. Dealer:

Give complete information when ordering service parts. Always give complete part number and also complete part description. The model number and serial number should always be given. Numbers for the HL3030 are stamped on a plate located on the Right side Lifting Arm Support. LT3030 numbers are located on the Right Drawbar Member. BH3030 numbers are located on the Left side of the Main Frame.

“Right” and “Left” are determined from a position sitting on the Seat and looking forward. From this position, the Foot Throttle is on the right and the Brake Pedal is on the left. “Front” is the leading side and “Rear” is the trailing side when the unit is traveling forward.

Gehl Company reserves the right to make changes or improvements in the design or construction of any part without incurring the obligation to install such changes on any unit previously delivered.

## TABLE OF CONTENTS

	Page
Introduction	2
